## SELF DIRECTED PROJECTS

### Wander iOS App

Present

- Used Figma, user survey to design and develop a solution to college students feeling unsafe while walking home alone at night by creating an app with a 3 member team that connects them with students in the vicinity to become walking buddies

### Katalog Systematic

Spring 2021

- Used InVision, React, Node.js, Express, MongoDB, Agile to create a K-pop photocard selling and trading database platform that streamlines transactions and provides current market prices in order to cater to fans and their photocard collections

### Fridgloo iOS App

Summer 2020

- Used Figma, React Native, MongoDB, Expo to develop an MVP with a 5 member team in 2 months for a fridge app that allows users to log their grocery contents and item expirations in order to keep this information consolidated and organized

## WORK EXPERIENCE

### NYU Paraprofessional

Resident Assistant (RA)

Apr 2019 - May 2020, New York

- Committed 20+ hours a week to policy enforcement, administration, and programming 15+ events for 180 residents a semester
- Handled crisis response to situations such as alcohol poisoning and medical emergencies in order to ensure a safe environment
- Conducted 1:1 meetings with residents to tailor to their needs or facilitate arising roommate conflicts during the storming stage

### Illumna Inc.

Product Design Lead

Oct 2017 - Aug 2019, New Jersey

- Supervised team of 4 through weekly meetings to create and design the nonprofit startup company's website within 2 months
- Self-learned WordPress and CSS to develop a user-friendly website implemented with efficient UX/UI design structures
- Marketed official launch of website and attained 10,000 views in the first week of launch, surpassing original goal of 2,000
